Disability Impact Score

The risk score is calculated by assigning one point to each disability type impacted by a failed Test ID. Disability groups with higher points have a higher risk of not being able to utilize the application. Projects should confer with the Certified Trusted Tester that performed the testing and their Component Section 508 Program Manager about remediating failed Test IDs before the application is released.

Risk Score: 2

Score Breakdown		
Disability Group	Risk Score	Detailed Impacted Groups (with Score)
