

dominKnow | ONE Accessibility Training

Instructor-led Training Class

Class Overview

Accessible e-learning is becoming a vital aspect of a well-rounded diversity strategy for government, corporations, and education institutions. In this class, you will learn about Section 508 and WCAG accessibility standards, how they relate to each other, and how they relate to your accessibility strategy. You will also leverage the dominKnow | ONE features and development best practices to design, develop, and test your e-learning courses for standards compliance. The goal is to produce accessible courses that are robust, interactive, and media-rich.

The topics covered in class can be tailored to the unique needs of your organization.

About the Instructor

Eddie Javor has developed hundreds of e-learning modules and has served as an instructor for 5 years. Having earned his bachelor's in graphic design at the University of Georgia, Mr. Javor has studied graphical user interface design and the progressing trends of technology-based learning. Mr. Javor brings real world experiences and industry best practices for e-learning development to the classroom.

Objectives

After completing this course, you will be able to:

- Describe the roles accessible e-learning courseware can play in a compliance and diversity strategy
- Describe the relationship between Section 508 and the WCAG standards for accessibility
- Leverage dominKnow features that support accessibility
- Design and plan e-learning courses with accessibility in mind
- Develop interactive, media-rich e-learning that aligns with accessibility best practices and standards
- Test your e-learning courses for compliance

Agenda

The class is presented in two 3-hour sessions delivered in either one full-day or two half-day sessions.

Details and Materials

Format

Instructor-led class
